

Tipi Carousel w/ Top Brace

ELE400065

Item no. ELE400065-3717GR	
General Product Information	
Dimensions LxWxH	3'11"x3'11"x3'10"
Age group	5 - 12
Play capacity (users)	8
Color options	

WOW, a spinning TIPI! The whimsical shapes of the TIPI carousel with top brace attracts children in its own right. And they will play here again and again, thanks to the multifunctionality of the slick TIPI. Responsive to children's movements, the TIPI spins when pushed or pulled. Apart from being a fun negotiation and turn-taking game, the pushing and pulling build

muscles and cardio. In the TIPI children can lie, sit or stand with the support of the side bars or the top frame. This welcomes children with mobility disabilities to be part of the play, too. The spinning movement trains the sense of space and balance. The sense of balance is fundamental to all other motor skills and is important for motor control, for instance being

able to sit still or cycle securely, without falling. The TIPI facilitates universal, inclusive play. It's good fun!

Tipi Carousel w/ Top Brace

ELE400065

The bowls are made of recyclable PE. The bowls are molded in one piece with integrated metal thread bushings and water drain hole to ensure high durability in all climates around the world.

Top brace is made of welded steel. The steel is hot dip galvanized inside and outside with lead free zinc and with outside powder coated top-finish.

Heavy duty engineered bearing system with single row deep groove ball bearings with rubber seals. The fully closed bearing construction is lifetime lubricated and maintenance free.

Item no. ELE400065-3717GR	
Installation Information	
Max. fall height	3'3"
Safety surfacing area	380 ft2
Numbers of installers (persons)	2
Total installation time	2.5
Excavation volume	0.58 yd3
Concrete volume	0.41 yd3
Footing depth (standard)	3'3"
Shipment weight	172 lbs
Anchoring options	In-ground <input checked="" type="checkbox"/> Surface <input checked="" type="checkbox"/>
Warranty Information	
Hollow PE Parts	10 years
Bearing construction	5 years
Galvanized steel	10 years
Spare parts guaranteed	10 years

Tipi Carousel has unique water drain system. Water drains automatically - assuring that carousel is always dry and ready to use. The water drain is covered by stainless steel strainer.

The Tipi Carousel is available in three different color options.

The sand colored variant is made of rotomolded stone mixed PE material with non skid surface texture. Minor differences in the stone mix visuality of the material are to be expected.

Elevated activities	Accessible elevated activities	Accessible ground level activities	Accessible ground level play types
Present	0	1	1
Required	0	1	1

Tipi Carousel w/ Top Brace

ELE400065

Top frame

Physical: support for standing, gripping, training sense of balance when spinning.

Social-Emotional: supports standing for more children at a time. Adds support and feeling of security for children with mobility impairments or disabilities .

Three side bars

Physical: support for gripping, pushing and pulling, training muscles. Back support for seating, also for children with mobility impairments or disabilities.

Social-Emotional: supports seated positions for more children. Facilitate social interaction between inside and outside, when children spin each other. Facilitates use from outside of Tipi Caroussel, and turn-taking.

Spacious platform

Physical: allows for more body positions: sitting, lying, standing, which facilitates use for children with physical disabilities.

Social-Emotional: facilitates many children using the Tipi Caroussel simultaneously, training cooperation and turn-taking

Shallow entry rim

Physical: support for entering and staying in when spinning. Eases entry for children with a range of mobility disabilities.

Social-Emotional: feeling of security when children lie or sit in Tipi Caroussel. Allows for more feeling securely seated when spinning.

Tipi Carousel w/ Top Brace

ELE400065

PHYSICAL
Joy of movement:
motor skills, muscle, cardio
and bone density

SOCIAL-EMOTIONAL
Joy of being together:
teamwork, tolerance and
sense of belonging

COGNITIVE
Joy of learning:
curiosity, understanding of causal
relationships and knowledge of the world

CREATIVE
Joy of creating:
co-creation and experimenting
with materials

BALANCE
To balance is to stay upright when walking or standing on a surface that makes this challenging (e.g. a wobbly, inclined, or narrow surface).

HANG IN ARMS
To hang in arms is the act of carrying the body with the hands or arms, possibly to traverse to another platform or play item.

SENSORY
To sense is the act of taking in information with the sensory system: seeing, feeling, hearing or sensing with the body.

BOUNCE
To bounce is the act of bouncing on a responsive, flexible, elastic or tensile surface.

JUMP
To jump is the act of jumping up or down on a hard surface.

SLIDE
To slide is the act of moving fast downwards seated on a slide.

CLIMB
To climb is the act of moving upwards, cross-coordinating arms and legs, on a vertical or inclined surface or net.

PULL
To pull is the act of pulling an item towards you or you towards an item with one or both hands, or possibly using the entire body.

SOCIALIZE
To socialize is the act of meeting, communicating or cooperating in an activity that stimulates and facilitates social interaction.

CONSTRUCT
To construct is the act of creating new patterns, shifting items or materials to new positions or constructing with materials that can be transformed or manipulated.

PUSH
To push is the act of pushing an item away from you with one or both hands, possibly with the entire body.

SPIN
To spin involves a fast, repeated horizontal or vertical turn of the body on a piece of equipment that facilitates the movement.

CRAWL
To crawl is the movement of moving forwards or backwards, cross-coordinating arms and legs, on a horizontal or slightly inclined surface.

ROCK
To rock is the action of rocking back and forth, or sideways, on e.g. a piece of spring equipment.

SWAY
To sway is the movement of swaying back and forth, or around, lying, seated or possibly standing, in a pendulant or circular movement, e.g. on a hammock or on a rope.

DRAMATIC PLAY
Dramatic play is motivated through play items that stage a frame, place or environment for acting out make believe or role play scenarios.

ROTATE
To rotate involves a vertical or horizontal slower paced turn of the body, facilitated by a piece of equipment.

SWING
To swing is the movement of swinging back and forth, or in circular movement, seated, standing or lying, in an unhindered arc.

GLIDE
To glide is the act of moving from one point to another without shifting the feet, in a horizontal or vertical movement, in a seated, lying or standing position, letting gravity do the work.

RULES PLAY
Rules play is motivated through play items that suggest games-with-rules, cooperation and team work, e.g. tic-tac-toe, timers or ball games.

WONDER
To wonder is motivated through play items that make children need and use their logical, abstract or creative thinking skills, as well as their memory.
