

Sport Bike With Touchscreen

FAZ50201

KOMPAN
Let's play

Item no. FAZ50201-0801

General Product Information

Dimensions LxWxH	3'7"x1'8"x3'10"
Age group	13+
Capacity (users)	1
Color options	 

KOMPAN has created adjustable, interactive Cardio equipment which is at the same level of quality and impact you would expect from equipment from an indoor fitness center. The Sport bike is all about an active riding style with a frame optimized for performance riding in a forward leaning position. The Sport bike saddle can be adjusted in height so that everyone can

ride the bike in the right position. The patented, self-powered resistance units create a real road cycle experience. The resistance can adapt automatically, depending on the pedaling speed, or the users can choose to manually change the resistance on the 7" touchscreen or in the KOMPAN App.

Sport Bike With Touchscreen

FAZ50201

The saddle is made of a Polyurethane Rubber and has a steel insert plate which connects it to the aluminium saddle pin. The saddle can be adjusted to 13 different heights, using a stainless steel pop-pin.

The cover is made of one of the hardest materials in the market, a Lexan Copolymer EXL9330 and has a thickness of 4mm. This cover can withstand any impact and will protect the electronics in the best possible way.

The Q-factor of the arm bike is 175mm, the crank is made of 18 mm stainless steel and connects the pedal arms which are casted stainless steel (grade 304) parts. The length of the pedal arms is 170mm and the pedals are connected with standard bike fittings.

The Innovative self-powered electrical motor and gear providing a virtual flywheel to give real cycle experience. The resistance works as an automatic drive and adapts automatically to the pedaling speed. The users can overwrite the automatic drive manually by changing the resistance in steps (26 - Watts) through the App.

The handle bars are designed with multiple hand positions to accommodate different postures and riding styles. It is a casted Aluminium part with Polyurea coating for good grip and insulation. The bike has a 7" colour LCD connected console with real-time feedback. The screen has an IK8 and IP65 protection.

You can connect the cardio machine to your phone or tablet via Bluetooth. This will provide instant feedback on speed, distance, cadence, watts, calories burned and time. You can also use your smart devices to manually adjust resistance (10 levels), have access to instructional and motivational videos, store and share activity data online!

Item no. FAZ50201-0801

Installation Information

Max. fall height	3'3"
Safety surfacing area	62 ft2
Numbers of installers (persons)	1
Total installation time	2.3
Excavation volume	0.44 yd3
Concrete volume	0.27 yd3
Footing depth (standard)	2'7"
Shipment weight	241 lbs
Anchoring options	In-ground <input checked="" type="checkbox"/> Surface <input checked="" type="checkbox"/>

Warranty Information

Saddle	10 years
Frame	10 years
Handle	10 years
Electronics	2 years
Spare parts guaranteed	10 years
