The popular cross-trainer known from indoor fitness is now available for outdoor training. With the best ergonomics on the market, KOMPAN's Cross Trainer gives an intense workout and adds an extra intensity layer with a special sprint mode (glute mode) that allows a high-calorie workout that strengthens the gluteus and lower limbs while focusing on the

core stabilizer muscles. The KOMPAN Cross Trainer provides a safe, non-impacting workout without putting unnecessary stress on the joints. The KOMPAN cardio family is designed to give users of all ages, physiques and fitness levels a cardiovascular training that keeps their heart rate above the needed 65% of their maximum heart rate. The intelligent system

automatically adapts the workout to the pace set by the user, securing that the user gets a proper resistance. Besides the automatic drive the user can also choose to manually adjust the resistance, either by using the touch screen or the KOMPAN cardio APP.

# Cross Trainer With Touchscreen

FAZ52101

You can connect the cardio machine to your phone or tablet via Bluetooth. This will provide instant feedback on speed, distance, cadence, watts, calories burned and time. You can also use your smart devices to manually adjust resistance (10 levels), have access to instructional and motivational videos, store and share activity data online!

The durable 7" LCD, touchscreen with IK8 protection glass gives instant feedback on speed, distance, time, burned calories etc. The resistance of the cross trainer can be adjusted on the screen.

The cover is made of one of the hardest materials in the market, a Lexan Copolymer EXL9330 and has a thickness of 4mm. This cover can withstand any impact and will protect the electronics in the best possible way.

The Innovative self-powered electrical motor and gear providing a virtual flywheel to give real road cycle experience. The resistance works as an automatic drive and adapts automatically. The users can overwrite the automatic drive manually by changing the resistance in 10 steps (45-750 Watts) through the App or screen.

The handle bars are designed with multiple hand positions to accommodate different postures and riding styles. It is a casted Aluminium part with Polyurea coating for good grip and insulation.

The footrests are made 39cm long x 15cm wide, accommodating all foot sizes. The back of the footrest has a specifically designed inclined surface which will bring the users in a sprint position, using much more of the gluteus, hamstrings and lower back muscles.
