Wood Plastic Composite (WPC) has the same texture and looks as wood, is maintenance-free and environmentally friendly. WPC fits perfectly into a natural environment. The fully flat inside gives the best bounce experience when playing. The flat wall becomes a part of the game and adds a new dimension to it, a dimension that can challenge and develop

players' tactical vision of the game. The 9'10" x 6'7" Multi Goal follows the goal size of FIFA Futsal and IHF Handball regulations. The basketball hoop is placed at the official NBA height of 10 feet, and has the official NBA size of 18 inches in diameter.

The WPC boards are attached to 70 x 45 x 3mm welded flanges with stainless steel M8 bolts, nuts and washers. These connections are not visible from the inside and create a strong and safe connection.
